- **What is mandala art ?**

The word Mandala comes from the ancient Indian language (Sanskrit), which means **a Circle or Center**. Mandala is drawn from the central point and is surrounded by beautiful patterns and decorations that are connected and interrelated. An image of a Mandala can symbolize everything in life that is interconnected and never-ending. A circle is a great symbol to illustrate that life has no end and spirits never disappear, and everything is just a part of nature, the world, and the universe. Likewise, from the Buddhism perspective, death is not the final state of the existence cycle, but it is just a passing phase of life. In other words, life is infinity and the wholesome of spirit.
